Sir:

The following amendments and remarks are submitted in response to the Office Action mailed on August 21, 2002, in connection with the above-identified application.

IN THE CLAIMS

Please substitute amended claims 1-8 as presented below for the same-numbered claims that were pending prior to the filing of this paper. A marked-up version of the amended claims is attached.

al cont

Sub B1

1.

~~(Amended) A glass touch sensing circuit, comprising:~~

a touch sensor which provides an output signal in response to a user's touch;

a switch having a switching period of time differently determined depending on

a level of the output signal from said touch sensor;
